

DATA INFORMATION NOTICE IN ACCORDANCE WITH REGULATION (EU) 2023/2854 ('DATA ACT') FOR CONNECTED PRODUCTS

1. DATA INFORMATION NOTICE IN ACCORDANCE WITH REGULATION (EU) 2023/2854 ('DATA ACT') FOR CONNECTED PRODUCTS

Products:

- 4E-CONTROLLER
- 4E-i-CONTROLLER
- 4E-EXPANDER
- COMPACT500

Connected products and related services of Hacousto Holland BV (4EVAC) generate various data and information during their use. Below you will find information on the product data generated by the Product, data access and your data rights.

2. TYPE, FORMAT AND ESTIMATED VOLUME OF PRODUCT DATA

The following product data may be generated during operation and use of the Product. The actual data generated varies depending on the specific use of the Product.

Types of product data

- Physical data: System diagnostics log (events, faults, power state)
- Device identification data (e.g. serial number, and software version).

Estimated volume

The estimated volume of product data varies depending on the data point and the use of the Product, with data volumes per data point ranging from 1 kB/h to <100 kB/h.

Data format

The product data is stored within the Product in various data formats and, as part of a data export, is provided at least in the following data format: TXT.

Currentness of product data

The product data in the Product is generated during use and operation in real time and continuously.

3. STORAGE LOCATION AND STORAGE DURATION

The product data is stored in the Product SD card and transferred to a PC using the 4EVAC Manager software.

If the Product is returned to the manufacturer due to a defect, the manufacturer can access the information stored in the product to analyse the fault.

The product data is regularly overwritten and deleted.

4. ACCESS MODALITIES

You can access the product data generated and potentially stored in the Product as follows:

- USB port

5. TECHNICAL MEANS AND REQUIREMENTS FOR DATA ACCESS

A computer with associated software and data cable.
